Section C: Declaration

I, _____, the undersigned confirm as follows :-

1. I am authorised to make the application and the statements herein for and on behalf of the applicant.

Signed:

Sealed (as appropriate)

Dated the _____ day of _____ 2010 .

Notes on the completion of form DNS1.1

1. Complete all sections of the application and send by post to PNG Internet Name Service, IT Services, UNITECH, PMB, Lae, Papua New Guinea. To speed up processing of the application ISDs may fax a copy of it, together with a copy of the cheque, to one of the above fax numbers
 2. All applications must be accompanied with a first time registration fee of K100.00. A bi-annual renewal fee of K50.00 will be invoiced during subsequent years. The fees structure is devised on a non-profit basis and is subject to annual review. It is designed to compensate the expenses of maintaining and administering the Domain Name Services for Papua New Guinea.
 3. There shall be only one registered name per business. Any further requirements, must be justified directly to the DNS administrator at PNGUT for approval. A registration fee of K100.00 will apply to all additional Domain Name Registrations.
 4. All domain names should adhere to the following format:
 - a Domain Name must be less than 63 characters and 2 or more characters long. It can be made up of entirely digits or alphabetic characters or any combination of such.
- NO underscores, hyphens, spaces, commas, full-stops, slashes or punctuation marks or any kind, are allowed in the beginning or end of the name. It should be noted that full-stops are used strictly to divide the domain to sub-domains. Therefore the use of full-stops must be restricted for this purpose only and can not be used as part a domain name.
5. Please ensure that at least two name servers are listed on this form (you may list three or more if you wish) and that records for the name you wish to register exist in the zone files on both the primary and secondary name server. No applications will be processed until these names are visible on the Internet.
 6. The declaration section must be completed by the company/individual applying for the domain name.
