See everything. Do anything.

Regardless of industry or location, monitors are an essential tool for an effective work environment. Forrester Research cited 96% of employees consider monitors as the most important feature of their workspace, and 88% believe better resolution and immersive monitors improve productivity.¹ Choose from our range of Dell Curved Monitors and stay ahead of the curve with immersive productivity.

EXPAND YOUR VIEW

With more onscreen space you can see more and accomplish more, without the need for a dual monitor setup. Choose from 34" to 49" screens (up to Dual QHD resolution) and get expansive views in striking clarity — perfect for multitasking.

DID YOU KNOW?

You can **boost productivity by up to 42%** when you use a 34" QHD curved monitor with Dell Display Manager, a keyboard and mouse with your laptop.²

ALL-ENCOMPASSING

Curved displays heighten your field of view, reduce reflections and create a near-uniform visual focus for an immersive wrap-around experience that helps you focus on your work. And with reduced eye movement across the screen, you'll get a comfortable viewing experience.

Built-in speakers on select monitors bring quality sound for an enhanced audio/visual experience.

STUNNING VISUALS

IPS (In-Plane Switching) panel technology and a 100% curvature along the entire screen, enables consistent color and picture quality across a 178° wide viewing angle. Expect accurate color with a wide color coverage across industry color standards, including sRGB, Rec 709 and DCI-P3.³ (With approximately 25% larger color coverage than sRGB, DCI-P3 is becoming a color standard when creating and viewing content.)

Immersive productivity

MULTITASK EFFICIENTLY

Connect and view content from two PCs at the same time with PBP (Picture-by-Picture) and PIP (Picture-in-Picture) features. Our intelligent Auto KVM feature detects the second connected PC and seamlessly switches controls over. Use the built-in KVM (keyboard, video and mouse) feature to control both PCs with a single keyboard and mouse.

Stay organized and on task with Easy Arrange, one of the many options included with Dell Display Manager software.⁴ Quickly tile and view applications side by side, so they're always right where you need them. Plus, the Auto-restore feature repositions the layout of your applications even after disconnecting from the monitor.

CONNECT TO PRODUCTIVITY

Dell Curved Monitors come with comprehensive connectivity, including RJ45 for Ethernet connectivity³ and USB-C[®] that delivers up to 100W of power.³ Get uninterrupted charging with the Always On Power Delivery feature, which continuously charges your system (and prevent accidental shutdown) even when the monitor is turned off. Convenient easy access ports enable quick connections and even charging³ to peripherals.

DESIGNED WITH YOU IN MIND

Research has shown that 92% of workers believe ergonomically optimized monitors are critically important for improving their productivity¹.

Thoughtfully designed, Dell monitors are crafted with premium finishing that complement both home or office environments and come with usability features to enable a more comfortable experience. Tilt, swivel and adjust the height of the monitor to your personal preference. Our monitors come with TÜV certified flicker-free screens and ComfortView⁴, a feature that reduces harmful blue light emissions, to optimize eye comfort.

A cable management slot allow you to hide cable clutter while the small base help free up desk space. For a more flexible workspace, you can pair these monitors with VESA-compatible mounts and stands.

Dell Curved Monitors

Experience immersive productivity and lose yourself in all encompassing views with Dell Curved Monitors, from the world's #1 monitor company*.

The curved screen **optimizes your field of view**, covering both primary and peripheral vision.

IPS panel technology for **consistent colors** across an ultra-wide viewing angle.

Enhance your senses with amazing visual and audio clarity (built-in speakers available in select models).

Near uniform visual focus enables a **comfortable viewing experience with less eye movement** vs a flat screen.

Enjoy **great visual clarity** with **minimal reflection** from ambient light.
